SOFTWARE DEVELOPMENT EXPERIENCE

Senior Software Engineer (React and React Native)

devSEAL Technology, Lagos sate Nigeria 2024-Present

- Lead the development of **scalable web and mobile applications** using **React, React Native, TypeScript, and modern frontend architectures**.
- Build and maintain **AI-powered frontend solutions**, including **reporting dashboards, data visualization tools, and document-extraction interfaces**.
- Contribute to products used across **healthcare, pension management, financial services, and charity platforms**, translating complex business needs into user-friendly solutions.
- Collaborate cross-functionally with **product, design, backend, and AI teams** to deliver high-quality, production-ready features.

- Design clean, reusable, and maintainable component systems with a strong focus on **performance, scalability, and accessibility**.
- Implement **secure authentication flows**, role-based access control, and robust API integrations.
- Supervise and mentor **interns and junior engineers**, providing technical guidance, code reviews, and structured learning support.
- Drive a culture of **code quality and best practices**, including testing, documentation, and consistent frontend standards.

Senior Software Engineer (React and React Native)

Chartered Institute of Bankers of Nigeria (CIBN)

2024-2025

- Contributed to the **redesign and modernization** of CIBN's digital application platforms to improve usability, performance, and user experience.
- Translated complex **institutional and regulatory requirements** into intuitive, scalable frontend solutions.
- Collaborated closely with **product managers, designers, and backend engineers** to deliver aligned, high-quality features.
- Built and maintained **secure, maintainable, and scalable frontend components** using modern web technologies.
- Improved **member interaction and operational efficiency** through user-centered design and thoughtful interface architecture.
- Supported CIBN's **digital transformation initiatives** by enhancing consistency, accessibility, and long-term platform scalability.
