Akintunde Adedoyin Afolabi

Senior Frontend Engineer | React, Next.js, TypeScript | Payments & Fintech Interfaces

akintunde_afolabi@yahoo.com · +234 813 316 5161 · Lagos, Nigeria (open to remote) · github.com/4cub3 · linkedin.com/in/adedoyin-akintunde-9a60901b4 · akintunde-adedoyin.vercel.app

Summary

Senior Frontend Engineer with 4+ years shipping production React, Next.js and React Native products across fintech, banking, pension, healthcare and logistics. Integrated Paystack payments into the Chartered Institute of Bankers of Nigeria's member platform and built its staff back office, including a regulated application review pipeline. Strong in TypeScript, Redux Toolkit, REST API integration, JWT authentication and role-based access control. Mentors junior engineers through code review and pair programming.

Core Skills

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, Context API, Tailwind CSS, HTML5, CSS3

Payments & Fintech: Paystack integration, payment verification flows, role-based access control, JWT authentication, secure REST API integration

Mobile: React Native (iOS and Android), Expo EAS builds

Backend & APIs: Node.js, Express.js, REST APIs, WebSockets, GraphQL fundamentals, Google Maps API

Practices: Git, GitHub pull requests and code review, CI/CD, Agile/Scrum, unit and component testing, component libraries and design systems, accessibility, performance optimisation, Python (scripting and automation)

Experience

Senior Frontend Engineer (React.js & React Native) at devSEAL Technology

Lagos, Nigeria · Full-time, hybrid · Mar 2024 to Present

- Lead frontend architecture and development of web and mobile applications in React, React Native and TypeScript for pension, healthcare and financial services products.
- Build data-rich interfaces including reporting dashboards, data visualisation tools and document-extraction UIs for Pension AI.
- Design reusable, well-tested component libraries and design systems used across product teams.
- Integrate with REST APIs and Node.js services, implementing secure JWT authentication and role-based access control.
- Continue development of the Sulos HIPAA-compliant senior-care platform: web command center plus caregiver and care-team React Native apps.

- Supervise and mentor interns and junior engineers through code reviews and pair programming; drive standards for testing, documentation and component consistency.

Frontend Engineer (Contract) at Chartered Institute of Bankers of Nigeria (CIBN)

Lagos, Nigeria · Remote · Jan 2025 to Sep 2026

- Led the React-based redesign and modernisation of CIBN's digital application platform, covering the member dashboard and the staff back office.
- Integrated Paystack for exam, membership and fee payments through a four-step flow: initiate, Paystack popup, verification, confirmation.
- Built the admin back office with application analytics and a review pipeline (pending review, pending document, pending payment, approved) so operations staff can triage cases.
- Translated institutional and regulatory requirements into reusable, accessible components, working with product managers, designers and backend engineers.

Frontend Engineer (React.js & React Native) at Ontreep Technology

Lagos, Nigeria · Contract, remote · Apr 2023 to Mar 2024

- Sole frontend developer for the Ontreep web platform and dashboards, built with React and Tailwind CSS.
- Built the Driver App and Sender App in React Native and TypeScript for a real-time logistics platform, with Google Maps API integration, WebSocket notifications and Expo EAS builds.
- Integrated REST APIs and maintained production-grade frontend code.

Frontend Developer (React Native Intern), Team Lead at Nupat Technologies

Lagos, Nigeria · Internship, remote · May 2023 to Nov 2023

- Led a team of interns to design, build and ship Caplog, a book keeping mobile app built with React Native.
- Managed global state with Redux Toolkit and maintained consistent UI/UX standards.
- Ran daily standups and code reviews to deliver on schedule.

Web Developer Intern at NIIT (National Institute of Information Technology)

Lagos, Nigeria · On-site internship · Sep 2022 to Jul 2023

- Built web applications with React, JavaScript, TypeScript, PHP and MySQL, and deployed static and dynamic websites.
- Delivered weekly frontend training to junior developers and contributed to the academic curriculum.

Selected Projects

- **CIBN member platform and admin back office**: new.cibng.org · backoffice.cibng.org
- **Pension AI**: AI-powered data automation for pension fund administrators and custodians · pensiondata.ai
- **AssetLane**: independent automotive advisory platform · assetlane.ai

- **Ontreep**: logistics web platform, dashboards and mobile apps · ontreep.com

Education & Certifications

- B.Sc. Computer Science, Kwara State University Malete (KWASU)
- Diploma in Web Development, NIIT
- UI/UX Essentials, Udemy
